

Photos about vegetation filter establishment

Planting at Kambja

Newly planted willow cuttings at Kambja

Before planting cuttings should stay in water for some days

Schoolchildren planting alders at Kambja

The old wastewater purification plant at Kihlevere is completely out of order

At Kihlevere the prototype will be close to the village

The area of vegetation filter at Vohnja before planting

The old bioponds at Vohnja will be reconstructed and isolated from the ground with biomembrans

Planting at Vohnja
